

**To our microbes,
this oil spill
looks like a T-bone
with all the trimmings**

GROUND ATTACK
LIQUID DIGESTANT & HYDROCARBON WASTE DEGRADER
Petroleum Spill Eliminator

Powerful Ground Attack Petroleum Spill Eliminator provides an effective, efficient means to treat soil and water contaminated by gasoline, diesel and other petroleum products. Ground Attack incorporates our proprietary blend of microorganisms, micro-nutrients, and vitamins specifically formulated to reduce and degrade the complex carbons in these contaminated areas. Our high quality microbes have excellent staying power and when used according to directions will remain on the job until the contaminants are significantly reduced, degraded or eliminated.
