Solution1 cleans, degrades and remediates industrial hydrocarbons in one step

Mule Head Brand Solution 1 Oil Eating Bugs is the microbial cleaner for environmentally sensitive companies such as bulk oil jobbers, class-8 truck fleets, fuel haulers, truck, automobile and heavy equipment dealerships, industrial plants, shipyards, towboat operators, airports, and barge lines.

Oil eating bugs

Solution1 is a fast-acting proprietary blend of microorganisms, nutrients, and vitamins which create a microbial compound. Solution1 feeds on hydrocarbon spills and contamination. The product is literally, "oil eating bugs."

What Solution1 works on:

- Diesel, gasoline and jet fuel
- Xylene
- Mineral oil
- Motor oil and grease
- Kerosene
- Hydraulic oil
- Cutting fluids
- Animal and vegetable fat
- Cyanide
- Fuel oils
- Antifreeze

Where Solution1 works:

- Mopping and general purpose cleaning
- Floor scrubbers
- Degreasing
- Oil / water separators
- Marine bilges
- Towboat engine rooms
- Other hydrocarbon spills and contaminations

Solution1 eliminates the hydrocarbon source

Typical treatments for hydrocarbon contamination and spills involve containment and collection. Solution1 changes all that. Used as directed, Solution1 attacks and eliminates hydrocarbon contaminants at the source.

- No need for granular absorbents, socks, and pads.
- 100% biodegradable
- VOC Free
- Contains no corrosives and butyls
- No rinsing needed
- Safe neutral PH solution
- Safe to use on all surfaces not harmed by water
- Reuse mop water and scubber solutions 3-4 times before disposal
- Reconditions and cleans oil/water separators and marine bilges
- Creates a cleaner effluent
